HIGHLIGHTS

- I'm an experienced Product Designer passionate about transforming ideas into impactful, results-driven products. What I enjoy most is designing purposeful user interfaces, making informed decisions backed by data, user insights, and clear KPIs. My focus is always on creating innovative solutions that not only look great but also solve real problems and drive measurable outcomes.
- I have had the opportunity to participate in the design of digital products from start to finish, creation of UI Kits, Design Systems and graphic assets with various companies from different scales such as: Deloitte (USA), Globant, Scotiabank, Falabella Bank (Perú), BCP Credit Bank of Perú, UNICEPTA (Germany), Buquebus (Arg), PRophet(USA), Entel (Perú) and others.
- Used to working in a diverse environment, participating in various teams and sometimes having the role of supervisor, always working closely with the development team.
- Used to working with an AI Workflow. I'm certified by the NN Group in AI for Design Workflows

EXPERIENCE

February 2026 - DevSavant -AI First IT & Service company with heavy use of AI

As Lead Product Designer my duties are:

- All UX UI and Product related tasks (Research, wireframing, prototyping, communicating directly with the client) for clients EWX Power (SaaS) and ABCME, an app to generate personalized coloring books. End to end ownership.
- **Technologies employed:** Figma, Cursor, Figma Make, Replit, claude, chatgpt
- **Biggest accomplishment:** The redesign of EWX's Visual image and information architecture.

July 2023 to March 01- 2026 - Truelogic-IT & Service company with heavy use of AI

As Senior Product Designer my duties are:

- All UX UI related tasks (Research, wireframing, prototyping, communicating directly with the client) for the client Stagwell Marketing. I worked on these projects:
 - Navigator: Marketing platform for travel and hospitality business which uses AI.
 - PRophet Monitor: Platform for Media outlets which uses AI
 - CUE Media Studio: Platform which creates profiles of users using AI
 - Stagwell Marketing central Design System.
- **Technologies employed:** Figma, Jira, Trello, Atlassian, Slack, Zeplin, Microsoft Teams, Google Meets.
- **Biggest accomplishment:** The redesign of SMC's Design System and the Redesign of CUE's Design System which led to it being sold as a white-label to many clients.

Nov 2021 to Nov 2022 – Globant IT & Service company

As a Visual UI Designer my duties are:

- To deliver UI designs for international clients
- I created Deloitte's USA design system for the project called AIOPS.D, involving AI.
- Worked with Agile/Scrum methodologies.
- Established direct client contact to ensure successful project delivery.
- Communicated in English with the client every day.
- **Technologies employed:** Figma, Jira, Trello, Atlassian, Slack, Zeplin.
- **Biggest accomplishment:** Creation of a Design System from the beginning.

Nov 2022 to March 2023 - VASS -IT & Service company

As Senior Product Designer my duties are:

- To develop visual designs for social media campaigns for the BCP account (Continental Bank of Perú).
- To make mobile and desktop prototypes in Figma and Sketch.
- To utilize Agile/Scrum methodologies to coordinate with my team.
- To participate in user research and user testing.
- Perform benchmarking and research to drive product decisions for BCP.
- Produce and edit audiovisual materials for marketing campaigns for BCP.
- **Technologies employed:** Photoshop, Illustrator, Figma, Excel, Google sheets, After Effects, Jira, Adobe Premiere, hotjar, maze.
- **Biggest accomplishment:** To have diagnosed and found errors in BCP's design system, and pushed for the correction of those mistakes.

Nov 2021 to Nov 2022 – Globant IT & Service company

As a Visual UI UX Designer my duties are:

- To deliver UI designs for international clients
- I created Deloitte's USA design system for the project called AIOPS.D, involving AI.
- Worked with Agile/Scrum methodologies.
- Established direct client contact to ensure successful project delivery.
- Communicated in English with the client every day.
- **Technologies employed:** Figma, Jira, Trello, Atlassian, Slack, Zeplin.
- **Biggest accomplishment:** Creation of a Design System from the beginning.

July 2021 – Dec 2021: IPE Chanel – Educational tv station

Data driven UX Visual Designer

- Social media visual design.
- **Technologies employed:** Figma, Adobe Creative Suite.
- **Biggest accomplishment:** Creation of a UI kit to speed up the process of creating digital ads.
